

It has come to my attention that the FCC is considering a change from regular FM to LPFM broadcasting. By changing to LPFM, my community would be deprived of K-LOVE radio, which is a family-oriented, Christian broadcasting organization. I wish to formally register my opinion against the switch for the following reasons:

1. I and my community would not be able to receive K-LOVE radio. K-LOVE serves our community by providing a positive and encouraging voice amid the common programming which offers (in my opinion) a much inferior programming product.

2. The effect on our community by NOT having K-LOVE radio through the LPFM system would deprive the Christian community in my area of a valuable resource for news and music we would not otherwise have.

3. I believe that the service K-LOVE provides is in the public interest because it is the ONLY voice in my community for family values, religious programming, and positive music which is not full of negative and immoral values.

Thank you.
